Colored men, be polite; teach your honest and God-fearing and all will be well with us.

THE Negro-haters are raging but we have heard them howl before. Let us keep step and charge the breast-works of material progress.

IT now seems that JOHN E. EPPS is spending all of his leisure time running to the daily newspaper offices, urging them to say a word in favor of his "Jim Crow Car Bill."

Colored people, let us pray Gon to provide a separate hell for John E. Epps and his supporters.

So few of these Negro-haters will reach heaven that it is useless to bother the good LORD about that place.

We of the South have found by experience that it is necessary to the safety of both races and to the public peace that the whites and blacks be kept spart as far as possible. Whereever they are mixed there will be clash and conflict.

It will be inconvenient to have the divided ear, but so far as we can ascertain there is a demand for this reform and the people must have their way."

JOHN E. Epps is in favor of mixed schools for as a member of the Richmond City Council, he voted for ap propriations for their support. Colored and white persons are mixed in the Richmond Normal School and sit all day together in that institution.

True to the propensi ies, it argues in favor of "bouneing" the colored men from the railways of the state as equals, and urges the clasping to its bosom the colored women in the dwellings of the commonwealth.

But what does consistency amount to when it comes in contact with rabid race prejudice? It must be evident to all who have sense enough "to ball a WE must pray it is true, but much buzzard" that it is against the "genwork right through here will help us teel Negro" that this contest is waged Mr. JOHN E. So the wishes of only one class of people are to be considered. If this theory holds good, how long will it be before the wealthy will proceed upon the same line in dealing with the laboring classes or the laboring classes will pursue the same policy in dealing

It proceeds to threaten the railroads in the following language:

Mr. Donovan, whom the writer of this article has known from boyhood, has always been a staunch friend to the colored people and has always shown an interest in their welfare. We would rather see a man like him elevated to this high office than some of the so-called Republicans, who can see no merit in the abilities of a colored man unless he occupies a menial

The Board of Aldermen and Schoo Committee are coming in for a large share of abuse from the different news papers of this city on account of the ridiculous way they are acting. The Board of Aldermen have been elected to do their duty, but instead of their doing it they are acting like a lot of school children. In fact, one of our esteemed contemporaries says that school children could make more progress than has been made by this board of our city officials. The trou-ble is over the election of a chairman. The republicans have not got enough members to elect (having but 5) while democrats have 8, but cannot unite on any one man for choice. All kinds of deals and counter-deals are being at work. A new ordinance in San Francisco taxes slot telephones one dollar per quarter and requires that the desired connection be made before the patron drops his coin into the slot.

So great has been the improvement of storage batteries of late that, according to an English engineer, a car now requires 500 pounds of cells that two years ago needed 1,600 pounds.

The greatest heat produced artificially is that of an electric are furnace, the kind that is used in the production of artificial diamonds, calcium carbide, etc. It is so intense that nothing exists with which to record it. It is estimated, however, to be of about 4,000 degrees Fahrenheit.

It is likely that automobiles will b shortly permitted to enter Druid Hill park, Baltimore. The park commissioners recently took a ride in an electric vehicle to observe its effect upon the horses. They passed about 400 teams during their ride, and only about two per cent. of the horses showed any fright, and even these were easily controlled by their drivers.

Twenty-five fire-alarm boxes have been put into use in New York city as an experiment, and if their operation proves successful the same apparatus will be generally adopted. The boxes are arranged so that two or more alarms may be sent simultaneously over the same circuit without causing confusion, and each alarm will be recorded at fire headquarters. With the present system, when two alarms are sent in over the same circuit, confusion and delay often result.

# TRADE IN WILD ANIMALS.

Tigers and elephants do not thrive in captivity as do lions, and their young are scarce.

Elephants have decreased in value to importers from \$10,000 to \$1,500 It used to be that an importer of animals could get \$5,000 for a fine lion,

but nowadays young lions bred in captivity are so many that they are a drug on the market. There is a considerable demand abroad for American animals and a young bison will sell for \$1,000, while moose and elk, diamond-back rattle-

snakes and alligators are much called for. Hippopotami are rare and expensive animals and it is not possible to name a set price for them, as sales are few. The only instance of a hippototamus being born in captivity in this country was when the zoo at Central park, New York, was added to by one of these queer babies.

As the storage of bicycles in Paris during the winter months is expensive, a great many Parisians pawn their machines in the Mont-de-Piete, or state pawnshop. The interest paid on the advance of money is very small, and is a great saving on what would be paid for storage. Besides as the pawnshops cannot say for certain that the bicycles will be reclaimed, they have to keep them in good order, so that they will fetch a satisfactory price should they be placed on the market.

fails. He has the secret of winning the affections of the opposite sex. It is the curse of spiritualism that in all large cities there are a class of men and women who ciaim powers they do not possess. They have neither gifts, credentials nor references. Sarely the colored people are not so wanting in sense as to throw their time and money away on such. Dr. Shes refers to the Bon. William Denmore, Architect and builder, 42 Cleveland Ave., and Ariher Sewell, Edipbuilder, Fo tith Brooklyl. All have known him for the past seven years. He gives a free test of his powerto all. The doctor has practice d five years in Mew Orleans, St. Louis, Mem p his and Louisville; understands thoroughly the diseases, spells or influences the race is subject to. He is now and always had a large patronage from them.

Brooklyn, Aug. 15, 1891 —This is to certify that came to New York from Albany. I was a stranger in a strange city, cut of work and out of money. I had no luck in anything I undertook, What to do I did not know. A friend advised me to go and see pr. Shea. I did. He told me the cause of my troubles he took me in and treated me as a brother. Through him I got a good position that very week. I had been to others: they took my money and did me no good. I bless the day I first met Dr. Shea. I would advise all in bad luck, sick or in trouble to go to him at once, a Sincerely,

South Plainfield, Aug. 18, 1861.—This is to certify that my busband had gone away and been absent two years. I moarned for him night and day. I gave him up as dead. Hearing of the wonderful things Dr. Shes was doing, I resolved to consult him. He told me my husband was alive and well and where he was; told me he would come home and when. To my joy all of it came true. He is home now, come back like one from the dead. I also wish to say that this month I lost the sum of \$550. I am a poor woman and I was most insane I went to Dr. Shes and he told me I would find my money and to my intense joy I did find it as he told me. I thank God there is a man so gifted in our midst that can help people and tell them what to do.

MRS. MARY MILLER, A SENSATION IN BROOKLYN-A

TER'S STATEMENT. I wish to state that one of my parishoners was sick and in trouble for a long time, Mrs. Brown, 37 Gay Street, No one seemed to understand her case. She had several doctors, but none of them seemed to know what was the matter. None could do her any good. It was my duty as her pastor to call and see her. Hearing of the wonderful werk being done by Dr. Shea the last few years, I thought I would call and see him myself. I found him a kind sympathetic gentleman. He gave me a wonderful test of his powers; told me to send him a lock of patient's hair, which i did by her daughter.

He told atonce what was the matter and in a short time cured her sound and well. Her family had seemingly been under a cloud. Now all is changed. All are well and prosperous. I can truly and heartily recommend Dr. Shea to all those in sickness or distress of any kind, Rev. William Johnson, Pastor Lebanon Church, Brooklyn.
